Mr. John Stevenson
Superintendent
Round Lake Village
P.O. Box 85
Round Lake, NY 12151

Re: Request for Information Pursuant to Section 1445 of the Safe Drinking Water Act
Docket Number SDWA-PWS-IR-15-004
Round Lake Village (PWS ID # NY4500167)

Dear Mr. Stevenson:

This letter is in follow-up to the United States Environmental Protection Agency's (EPA) October 14, 2014, Safe Drinking Water Act (SDWA or Act), Section 1445 Information Request Letter (IRL) (enclosed) issued to Round Lake Village regarding compliance with the SDWA and National Primary Drinking Water Regulations (NPDWRs) and your response to the request.

The EPA's IRL required submittal of information in order to determine compliance with the Stage 2 Disinfectants and Disinfection By-Products Rule (Stage 2 DBPR) for Round Lake Village SDWA Section 1445 and 40 Code of Federal Regulations (C.F.R.) Part 141 Subpart D (§141.31) authorizes the EPA to require the submittal of information so it can determine a public water system's compliance with federal drinking water regulations.

The information that you provided to the EPA on October 28, 2014, represents an appropriate response to the IRL. No further information is required at this time.

Please note, Round Lake Village must continue to monitor for total trihalomethanes (TTHM) and five haloacetic acids (HAA5) in accordance with 40 C.F.R. Part 141, Subpart V and according to the approved Stage 2 DBPR monitoring plan. The samples must be analyzed in accordance with 40 C.F.R. §141.621(a) and reported to the New York State Department of Health (NYSDOH). In addition, you must also report the sampling results to EPA until further noticed.

The EPA appreciates your cooperation and prompt attention to this matter. If you have any questions or need additional assistance please contact Stephanie Sessoms-Midgett of my staff at (212) 637-3352.

Sincerely,

A handwritten signature in blue ink, appearing to read 'D. McKenna', with a long horizontal flourish extending to the right.

Douglas McKenna, Chief
Water Compliance Branch
